

What is the GRABO?

The GRABO is the world's first portable vacuum lifter and is one of the most innovative tools of recent years helping tradespeople up and down the UK to get the job done quickly and safely. The powerful GRABO can lift up to 170kg and is designed to work with dry, rough and porous materials. Talk to us today about stocking the GRABO in your business.

OTTOVAC BY GRABO®

The Ottovac is the latest innovation from the makers of GRABO. A robust, battery-powered suction cup, perfect for glass and other smooth surfaced materials.

NEW

Rock Seal

The GRABO RockSeal is designed to make it easier to pick up rough materials such as rocks, stones or surfaces with variations in height up to 10mm.

The Rock Seal is interchangeable with your standard GRABO seal, and swapping between the two is a breeze!

Slender Seal

The GRABO Slender Seal is the perfect accessory for your Grabo, allowing you to lift thinner and longer materials with ease.

The Slender Seal is interchangeable with your standard GRABO seal, and swapping between the two is a breeze!
